

May 13, 1975

PRESIDENT: I know it and there is another thing that I have observed, there are several ways in saying that you support a bill. The easiest way is push the green button and not get up and talk for 15 minutes that you support it. Senator Dworak for what purpose do you rise?

SENATOR DWORAK: What is this green button business anyway?

PRESIDENT: That is that other one. Any guy that want to move 610, Senator Dworak had the right idea, he tried to move it across this morning. Are we ready to proceed then?

CLERK: Mr. President, the motion pending is the Cavanaugh amendment and he is absent.

SENATOR F. LEWIS: As a matter of courtesy a guy should wait until the other guy is here, but he knew what time we started and I would just as soon go ahead. Because of my strong personal friendship with him, I know that he won't object.

PRESIDENT: Cain and Abel were brothers.

SENATOR F. LEWIS: I have a hell of a line for that but I won't go into it.

PRESIDENT: I hate to go into Senator Chambers field, but guess....Your time is running Senator.

SENATOR LEWIS: What I was going to say Mr. President, that certainly we have heard Senator Cavanaugh's remarks today and I'll take the brunt of his criticism if he is upset that we act on my amendment before he gets here, my point is simply this. I think we ought to resolve the issue for once and for all. The major issue is are we going to have the SUN project. That is for the Legislature to determine. I am not hard on the fact that we do that. But if we are going to let's do it correctly. Now the appropriations committee within the language relating to sun already has a language in their that I understand, commissioning a study of the relationship of the SUN TO the extension service. That is on-going and we can change it next year. As for now if we were going to adopt the SUN program I think that my amendment should be there to say that the university can create the necessary centers if they desire for the on-going part of the SUN program and I ask for the adoption of my amendment to the amendment.

PRESIDENT: Senator Koch.

SENATOR KOCH: Mr. President, members of the body, I rise to speak in opposition to both amendments. Because I don't think that...

PRESIDENT: Only the second one is up.

SENATOR KOCH: Alright, I'll speak against Senator Lewis' amendment because I think that if you look on page 39 of LB610 you will see that the appropriations committee has directed the University Extension Service Program and the cooperative extension service and the state University of Nebraska to submit to them in the next year the merits of
